

We work proactively with communities...

Community involvement is at the heart of the planning process. Understanding community's attitudes to development has become ever more important.

We have years of experience of working with communities and understanding views of developments. Every project is different and requires a tailored approach, that's why we take time to understand and develop effective relationships with local stakeholders, political partners and residents.

Working in collaboration with Geoff Perry Associates Ltd www.geoffperryassoc.co.uk we are able to produce CGI's, brochures, exhibition boards and leaflets to bring your development dream to life and to enhance understanding through visual communication.

URBANISSTA HAS SUPPORTED US ON A RANGE OF COMMUNITY ENGAGEMENT PROJECTS, INCLUDING ORGANISING A CONSULTATION EVENT, DESIGNING EXHIBITION BOARDS, LEAFLETS, QUESTIONNAIRES, AND ISSUING MAILSHOTS FOR OUR EXHIBITION EVENTS. THE SCI CONCISELY SUMMARISED THE KEY ISSUES THE COMMUNITY IDENTIFIED AND THE MICRO WEBSITE LOOKED GREAT AND WAS A REALLY USEFUL ENGAGEMENT TOOL. THEIR ABILITY TO PROVIDE DETAILS OF SOCIAL MEDIA AND WEB SITE VISITS, WAS USEFUL FOR OUR LAND OWNERSHIP AND POLITICAL PURPOSES.

URBANISSTA

Forward Thinking Communications

BDW

Event & Exhibition Co-ordination

We organise tailor-made events both for in person or interactive digital events, including public consultation, design or development exhibitions or tailored events.

CGI's

In partnership with Geoff Perry Associates Ltd, we can produce computer generated impressions (CGI's) using AutoCAD, Revit, and Adobe, bringing your scheme to life.

Targeted Communications

We use a variety of methods to communicate with the community and key stakeholders to ensure that everyone has an opportunity to make their views known.

Stakeholder Consultation

We develop strong working relationships with local stakeholders and develop specialist knowledge of the best ways in which to interact with key interests.

Newsletters & Information Packs

We can prepare, design and distribute a range of newsletters or information packs to residents and key stakeholders.
